Aracaju, August 13, 2012 - The Management of Energisa Sergipe – Distribuidora de Energia S/A ("Energisa Sergipe") hereby presents its quarterly information for the first half of 2012 (6M12), prepared in accordance with International Financial Reporting Standards - IFRS.

1 - Business Profile and General Considerations

Energisa Sergipe is an electricity distributor that serves approximately 639 thousand consumers and a population of roughly 1.8 million in 63 municipalities in the state of Sergipe.

Last July 4th Energisa Sergipe came second amongst distribution companies in the North-East region of Brazil in the 2012 edition of the Award delivered by the Brazilian Association of Electricity Distributors. The Abradee awards are one of the leading accolade in the Brazilian power sector and aim to encourage the enhancement of corporate management, presenting the positive results achieved by distribution companies in consumer services and helping improve the living standards of the general public.

The excellent levels of satisfaction in the Abradee survey are due to the ongoing work of Energisa to ensure the population of Sergipe has access to a quality electricity service. The company is continually investing in the construction of distribution and transmission grids and substations, electricity maintenance and the training of its staff and acquisition of technology.

The main economic and financial figures of Energisa Sergipe for the first half have been summarized below:

Operating and Financial Indicators

Descrição	6M12	6M11	Change %
Results - R$ million			
Gross Operating Revenue	528.6	452.5	+ 16.8
Net Operating Revenue	364.6	310.1	+ 17.6
Earnings before interest and tax (EBIT)	68.5	54.3	+ 26.2
EBITDA	88.4	78.6	+ 12.5
Adjusted EBTIDA	94.0	82.8	+ 13.5
Financial result	(18.6)	(28.5)	- 34.7
Income before tax	49.9	25.8	+ 93.4
Net Income	41.2	22.8	+ 80.7
Financial Indicators - R$ million			
Total Assets	1,070.2	1,013.2	+ 5.6
Cash / Cash Equivalents / Short-Term Investments	96.9	117.0	- 17.2
Shareholders' Equity	379.6	348.2	+ 9.0
Net Debt	426.6	360.3	+ 18.4
Operating Indicators			
Number of Captive Consumers (thousand)	638.9	608.7	+ 5.0
Energy sold to Captive Consumers (GWh)	1,144.7	1,085.5	+ 5.5
Total Electricity Distributed (GWh)	1,633.0	1,550.3	+ 5.3
Energy Losses (% in past 12 months)	10.13	10.63	- 0.50 p.p
Related indicators			
Adjusted EBITDA / Net Revenue (%)	25.8	26.7	- 0.9 p.p
Net Debt / Adjusted EBITDA 12 months (times)	2.4	2.5	- 4.0

2 – Economic and Financial Performance

2.1 - Net Income

Energisa Sergipe recorded **net income of R$ 41.2 million** in 6M12 (R$ 210.57 per share), of which R$ 21.9 million (R$ 111.87 per share) was recorded in 2Q12. Earnings in 2Q12 up by 51.0% over 2Q11. Net income in 6M12 expanded by 80.7% over 6M11.

This net income growth in 6M12 is partly due to the increase of 17.6% (or R$ 54.5 million) in net operating revenue in the half, along with smaller relative growth in operating expenses, which boosted operating cash generation (EBITDA). Operating expenses rose by 15.8% (or R$ 40.3 million) in the half. Energisa Sergipe consequently presented operating cash generation (adjusted EBITDA) of R$ 94.0 million, which signifies an increase of 13.5% (or R$ 13.5 million) over 6M11.

Net income for the quarter was also boosted by the change in net financial expenses. These expenses fell by 92.7% in the period.

See below the change and breakdown of the Company's net income and cash:

Breakdown and change of net income	Quarter			Half		
(R$ millions)	2Q12	2Q11	Change %	6M12	6M11	Change %
(=) Net operating revenue	189.6	158.1	+ 19.9	364.6	310.1	+ 17.6
(=) Earnings before interest and tax (EBIT)	34.6	30.8	+ 12.3	68.5	54.3	+ 26.2
(+) Financial result (revenue minus financial expenses)	(10.1)	(13.9)	- 27.3	(18.6)	(28.5)	- 34.7
(+) Income and social contribution taxes	(2.6)	(2.4)	+ 8.3	(8.7)	(3.0)	+ 190.0
(=) Net Income	**21.9**	**14.5**	**+ 51.0**	**41.2**	**22.8**	**+ 80.7**

Change in cash generation

Breakdown of cash generation (EBITDA)	Quarter			Half		
(R$ millions)	2Q12	2Q11	Change %	6M12	6M11	Change %

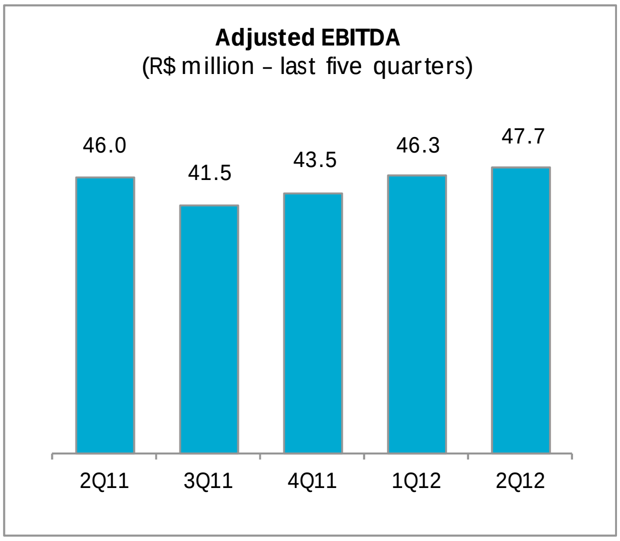
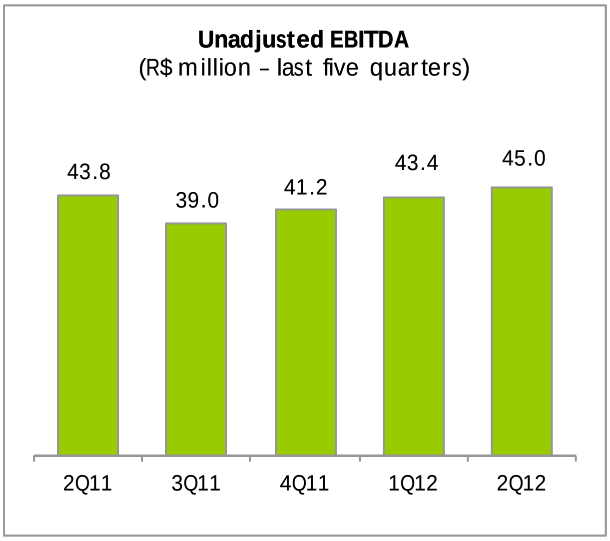
The growth in Energisa Sergipe's EBITDA and Adjusted EBITDA in the last five quarters is as follows:





2.2 - Gross and net operating revenue

The increase in energy sales and services of Energisa Sergipe led to an increase in the Company's gross operating revenue of 16.8% (or R$ 76.1 million), which amounted to R$ 528.6 million in 6M12 compared with R$ 452.5 million in the same period the previous year. Gross revenue amounted to R$ 272.4 million in 2Q12, an increase of 17.9% (or R$ 41.3 million) over 2Q11.

Net operating revenue, in turn, rose by 17.6% (or R$ 54.5 million) in 6M12 to R$ 364.6 million. In 2Q12 net operating revenue rose by 19.9% (or R$ 31.4 million) over 2Q11, to R$ 189.5 million.

The gross operating revenue and net operating revenue break down as follows:

Revenue by Consumption Sector Amounts in R$ million	Quarter			Half		
	2Q12	2Q11	Change in R$ million	6M12	6M11	Change in R$ million
(+) Electricity revenue (retail market)	**228.7**	**192.5**	**+ 36.2**	**448.9**	**377.5**	**+ 71.4**
• Residential	105.2	85.6	+ 19.6	206.5	169.9	+ 36.6
• Industrial	30.8	26.7	+ 4.1	58.0	50.2	+ 7.8
• Commercial	56.7	48.5	+ 8.2	113.4	95.1	+ 18.3
• Rural	5.8	3.8	+ 2.0	12.0	9.0	+ 3.0
• Other sectors	30.2	27.9	+ 2.3	59.0	53.3	+ 5.7
(+) Electricity sales to distributors	5.9	4.9	+ 1.0	11.8	10.9	+ 0.9
(+) Unbilled sales	(0.4)	0.7	- 1.1	(4.0)	1.5	- 5.5
(+) Electricity network usage charges	12.5	11.5	+ 1.0	25.9	22.2	+ 3.7
(+) Construction revenue	21.6	14.3	+ 7.3	37.5	28.6	+ 8.9
(+) Other revenue	4.1	7.2	- 3.1	8.5	11.8	- 3.3
(=) Subtotal - Consolidated gross operating revenue	**272.4**	**231.1**	**+ 41.3**	**528.6**	**452.5**	**+ 76.1**
(-) Tax on revenue	(70.6)	(61.0)	- 9.6	(139.2)	(118.9)	- 20.3
(-) Sector charges	(12.3)	(12.0)	- 0.3	(24.8)	(23.5)	- 1.3
(=) Total - Consolidated net operating revenue	**189.5**	**158.1**	**31.4**	**364.6**	**310.1**	**+ 54.5**

2.3 – Operating expenses

2.3.1 - Operating expenses in electricity distribution and services

Operating expenses in electricity distribution and services amounted to R$ 258.6 million at Energisa Sergipe in 6M12, an increase of 13.8% (or R$ 31.4 million) over the amount recorded in 6M11. In 2Q12 the increase in these expenses was 18.0% (or R$ 20.3 million) over the same period last year.

2.3.1.1 - Controllable expenses in electricity distribution and services

The controllable expenses (personnel, material and outsourced services) in electricity distribution and services rose by 4.7% (or R$ 2.6 million) in 6M12, to R$ 57.4 million. The controllable expenses rose by 11.4% (or R$ 3.2 million) in 2Q12 over 2Q11.

2.3.2 – Construction costs

Following the adoption of international accounting standards (IFRS), Energisa Sergipe is now recognizing revenue and costs deriving from the construction of infrastructure used in public energy concessions, attributing a margin of zero to this activity. Construction costs amounted to R$ 37.5 million in 6M12 (R$ 21.6 million in 2Q12), compared with R$ 28.6 million in 6M11 (R$ 14.3 million in 2Q11).

2.3.3 - Total operating expenses

Energisa Sergipe's operating expenses amounted to R$ 296.1 million in 6M12, an increase of 15.8% (or R$ 40.3 million) over 6M11. Total operating expenses rose by 21.7% (or R$ 27.6 million) in 2Q12 over 2Q11.

Operating expenses break down as follows:

Breakdown of operating expenses (R$ million)	2Q12	2Q11	Change in R$ million	6M12	6M11	Change in R$ million
1 - Controllable expenses	**31.3**	**28.1**	**+ 3.2**	**57.4**	**54.8**	**+ 2.6**
1.1 - Personnel (includes pension fund)	16.5	14.5	+ 2.0	29.9	28.5	+ 1.4
1.2 - Material	2.7	3.0	- 0.3	5.4	5.4	-
1.3 - Services	12.1	10.6	+ 1.5	22.1	20.9	+ 1.2
2 - Uncontrollable expenses (acquisition of energy and transmission)	84.2	70.0	+ 14.2	171.1	143.2	+ 27.9
3 - Depreciation and amortization	10.4	13.0	- 2.6	19.9	24.3	- 4.4
4 - Allowance for doubtful accounts and contingencies	5.0	(0.2)	+ 5.2	6.2	0.6	+ 5.6
5 - Other expenses / revenue	2.4	2.1	+ 0.3	4.0	4.3	- 0.3
Subtotal (1+2+3+4+5)	**133.3**	**113.0**	**+ 20.3**	**258.6**	**227.2**	**+ 31.4**
6 – Construction cost	21.6	14.3	+ 7.3	37.5	28.6	+ 8.9
Total	**154.9**	**127.3**	**+ 27.6**	**296.1**	**255.8**	**+ 40.3**

2.4 - Financial result

The net financial result (financial revenue minus financial expenses) amounted to a net financial expense of R$ 18.6 million in 6M12 (R$ 10.1 million in 2Q12), as compared to a net financial expense of R$ 28.5 million in 6M11 (R$ 13.9 million in 2Q11).

The table below denotes the short- and long-term debt net of financial resources (cash, cash equivalents and short-term investments) of Energisa Sergipe as of June 30, 2012 and December 31, 2011:

Description Amount in R$ million	06/30/2012	12/31/2011
Short-term	**56.5**	**62.3**
Loans, financing and debentures	41.3	47.7
Debt charges	13.5	12.5
Financing of taxes and	1.7	2.1
Long-term	**467.0**	**446.1**
Loans, financing and debentures	459.8	446.1
Financing of taxes	7.2	-
Total debts	**523.5**	**508.4**
(-) Cash and cash equivalents	96.9	111.7
Total net debts	**426.6**	**396.7**

R$ 313.6 million (59.9%%) of the total debt as of June 30, 2012 is denominated in US dollars deriving from the international Notes Units issuance, with an outstanding balance at the end of March 2012 of USD 109.6 million, in addition to debentures of USD 42.4 million. The notes have a long term maturity, on July 19, 2013, and yield interest of USD plus 10.5% per annum.

The debentures yield interest of USD plus 8.85% per annum and also have a long term maturity over three annual installments, the last of which matures on November 08, 2015. Energisa Sergipe has hedged the aforementioned positions against adverse exchange variance, subject to certain covenants.

3 – Operating Performance

3.1 – Electricity Sales

Electricity sales to the captive consumers served by Energisa Sergipe grew in 2Q12 at a similar pace to 1Q12, to 872.0 GWh, an increase of 5.6% over the same quarter of 2011. Rural consumption stood out in the quarter, rising by 48.6%, followed by the commercial sector, which continued to enjoy substantial growth, rising by 81.3%. Captive and free industrial consumption expanded by 6.4%. Total energy distributed, including captive and free consumers, sales to distributors and unbilled sales, consequently stood at 812.1 GWh in 2Q12, an expansion of 4.2% over the same quarter last year.

Captive consumption rose by an accumulated 5.5% in 6M12 over 6M11 and total energy distributed stood at 1,633.0 GWh, i.e. 5.3% more than in 6M11. The table below shows the change in electricity sales by segment over the half:

Electricity Sales by Segment
(In GWh)

	Quarter			Half		
Description	2Q12	2Q11	Change %	6M12	6M11	Change %
a) Energy Sales in the Retail Market	**561,0**	**531,2**	**+ 5,6**	**1.144,7**	**1.085,5**	**+ 5,5**
* Residential	214,6	202,4	+ 6,0	432,9	411,7	+ 5,1
* Industrial	75,2	85,2	- 11,7	160,8	171,3	- 6,1
* Commercial	121,8	111,0	+ 9,7	248,9	226,3	+ 10,0
* Rural	28,1	15,5	+ 81,3	60,1	42,8	+ 40,4
* Other sectors	121,3	117,1	+ 3,6	242,0	233,4	+ 3,7
b) Electricity Sales to Distributors	66,5	87,8	- 24,3	132,8	148,6	- 10,6
c) Net Unbilled Sales	(3,5)	(2,0)	+ 75,0	(2,0)	0,5	-
d) Total Electricity Sales (a+b+c)	**624,0**	**617,0**	**+ 1,1**	**1.275,5**	**1.234,6**	**+ 3,3**
e) Energy associated with Free Consumers	188,1	162,3	+ 15,9	357,5	315,7	+ 13,2
f) Total Electricity Distributed (d+e)	**812,1**	**779,3**	**+ 4,2**	**1.633,0**	**1.550,3**	**+ 5,3**

3.2 - Energy losses

Energy losses were recorded at 10.13% in the past twelve months ended June 2012, a decrease of 0.50 percentage points over the same period ended June 2011.

4 - Investment

Focusing on projects that aim to enhance service quality, Energisa Sergipe's investment amounted to R$ 44.4 million in the first half of 2012, an increase of 25.1% over the same period last year, which saw investment of R$ 35.5 million.

Initiated in 2004, the Universal Electricity Access and Usage Program also made substantial progress in June 2012 and has served 51,014 families. Since its conception, this program has received investment of R$ 245.1 million.

5 - Dividends

On August 09, 2012 the Energisa Sergipe Board of Directors approved the payment of interim dividends from the net income for the first half of R$ 29.0 million (R$ 148.23 per common and preferred share). These dividends will be paid from August 17.

6- Services rendered by the independent auditor

The total remuneration of Deloitte Touche Tohmatsu Auditores Independentes for the services provided to Energisa Sergipe in the first half of 2012 was R$ 179,000, as follows: i) R$ 78,000 for reviewing the financial statements, ii) R$ 50,000 for procedures previously agreed with ANEEL for the “Light for All” programs, and iv) R$ 51,000 for reviewing the processes and procedures implemented to obtain corporate income tax incentives – Sudene.

The Company's engagement policy complies with the principles that sustain the auditor’s independence, in accordance with existing standards, which mainly determine that the auditor should not audit its own work, perform managerial duties for its client or pursue its interests.

Management.

Notes to the quarterly information
Period ended June 30, 2012
(In thousands of reais, unless stated otherwise)

1. Operations

A part of ENERGISA GROUP, Energisa Sergipe – Distribuidora de Energia S/A ("Company or Energisa SE") is an electricity distribution company, operating in 63 municipalities in the state of Sergipe, serving 638,943 consumers (information not reviewed by the independent auditors). The Company is a publicly held company and is headquartered in the city of Aracaju, Sergipe state.

The concession operator's main obligations stipulated in the concession arrangement as per ICPC 01 (R1) and ICPC 17 are to:

I - Supply electricity to consumers located in its concession area, at the levels of quality and continuity established in specific legislation

II - Carry out the work necessary to provide the concession services and replace assets, operating the infrastructure so as to ensure the regular, continuous, efficient and safe provision of services and charging of rates

III - Organize and maintain a record and inventory of the concession assets and ensure the integrity thereof. Concession operators may not sell or submit as guarantee the assets without the prior express consent of the regulatory agency

IV - Meet all tax, labor, social security and regulatory obligations, including the provision of information to consumers

V - Implement measures to combat energy waste, through energy consumption reduction programs and innovations

VI – Submit to the prior approval of the National Electricity Regulatory Agency (ANEEL) any changes in share control that could result in control changing hands. In the event share control is transferred, the new controlling shareholders should sign an agreement accepting the terms of the concession arrangement and the concession legislation and regulations, and

VII - The concession may be discontinued by terminating the agreement, expropriation of the service, cessation, rescission, irregularities or bankruptcy of the concession operator, and may be extended by way of an application from the concession operator and at the sole discretion of the concession authority.

The information regarding: rate reviews and adjustments, classification of the concession, concession revenue and concession term can be seen in notes 9, 15, 24 and 29 respectively.

2. Presentation of the interim financial information (quarterly information)

Approved by the Board of Directors on August 09, 2012, the Company's interim financial information (quarterly information) consists of:

- The individual interim financial information prepared and presented in accordance with CPC Technical Pronouncement 21 - Interim statements and the standards issued by the Brazilian Securities Commission, that apply to the preparation of Quarterly Information - ITR, identified as "Individual - BR GAAP";

The Company did not report any comprehensive income in the current period.

The other information regarding the preparation bases, presentation of the interim financial information and summary of the main accounting practice has not changed in relation to that disclosed in Note 2 to the Annual Financial Statements for the financial year ended December 31, 2011 (hereinafter referred to as "Financial Statements as of December 31, 2011"), published in the official press on March 12, 2012.

This interim financial information (quarterly information) should therefore be read in conjunction with the aforesaid financial statements.

3. Adoption of international accounting standards

3.1 New accounting procedures issued by the IASB

The information about the new accounting procedures issued by the IASB has not undergone any significant changes in relation to that disclosed in Note 3 to the Financial Statements as of December 31, 2011.

4. Segment reporting

An operational segment is a component of the Company that develops business activities from which revenue streams can be derived and expenses incurred, including revenue and expenses related to transactions with other Company components. All operational income from segments is reviewed frequently by Management to support decisions about new resources to be allocated to the segment and to evaluate its performance, for which individual financial information is made available.

Segment results reported to Management include items directly attributable to the segment and items that can be reasonably allocated. Items not allocated primarily consist of corporate assets.

The Company only operates in the energy distribution segment in 63 municipalities in Sergipe state, and its income statement denotes this activity.

5. Cash and cash equivalents, money market and secured funds

Subtotal - consumers	**62,051**	**17,389**	**3,842**	**1,550**	**570**	**1,499**	**86,901**	**80,516**
Concession operators **(2)**							12,999	13,684
Unbilled sales							13,673	17,686
Other							8,552	7,936
(-) Allowance for doubtful accounts							(4,766)	(4,163)
Total	**62,051**	**17,389**	**3,842**	**1,550**	**570**	**1,499**	**117,359**	**115,659**
Current							109,815	108,115
Noncurrent							7,544	7,544

(1) Maturities are scheduled for the 5th working day after the bills are delivered, except for government consumers who have 10 working days to pay.
(2) Includes energy sold at the Electricity Commercialization Chamber - CCEE.

The balance of the consumers and concessionaires account as of June 30, 2012 includes amounts referring to the sale of energy at the Electricity Commercialization Chamber – CCEE to the amount of R$ 8,178 (R$ 8,068 as of December 31, 2011), relating to the period September 2000 through December 2011, net of the partial payments made up to June 30, 2012. These balances were determined based on calculations prepared and published by the CCEE.

The breakdown of these amounts, including the balance recorded under “suppliers payable” in the current liabilities of R$ 2,447 (R$ 1,001 as of December 31, 2011), referring to the acquisition of electricity at CCEE and system service charges of R$ 131 (R$ 312 as of December 31, 2011), are shown below:

Breakdown of CCEE credits	6/30/2012	12/31/2011
Credits linked to court injunctions up to December 2002	6,387	6,387
Overdue credits (*)	1,791	1,681
	8,178	**8,068**
(-) Energy acquisitions at CCEE	(2,447)	(1,001)
(-) System service charges	(131)	(312)
	5,600	**6,755**

(*) The Company has an allowance for doubtful accounts of R$ 1,350.

Transactions occurring as from July 2003 are being settled 45 days after the accrual month.

Current energy amounts linked to court injunctions are subject to change, depending on the outcome of the legal proceedings in progress. These proceedings have been brought by various companies in the sector relating to the interpretation of existing market rules. Not included in the rationing area, these companies obtained a court injunction which overturned ANEEL Resolution 288 issued May 16, 2002 which aimed to clarify companies operating in the sector about the treatment and means of applying certain MAE (now the CCEE) accounting rules set out in the General Electric Sector Agreement. These companies’ claim involves the sale of Itaipu’s quota in the southeast/central and western submarket during the period of rationing between 2001 and 2002, when there was a significant discrepancy in short-term energy prices between the submarkets.

The Company did not make an allowance for doubtful accounts referring to the balances linked to these injunctions, as it holds that the amounts will be received in full either from the borrowers legally contesting the loans or from other companies which the CCEE specifies in the future.

7. Credit receivables

Refers to overdue electricity bills, renegotiated with consumers through the Debt Acknowledgement Instruments, restated according to the variation of the IGPM price index. The receivables under certain operations that have been negotiated at rates other than those practiced for this set of accounts receivable have been restated based on specific interest rates that reflect the nature of these assets (IGPM).

The balances as of June 30, 2012 are shown below:

	6/30/2012	12/31/2011
Credit receivables	24,355	24,047
Adjustment to present value	(1,014)	(2,891)
(-) Allowance for doubtful accounts (*)	(13,388)	(8,732)
	9,953	**12,424**
Current	7,650	10,014
Noncurrent	2,303	2,410

(*) Included in the total presented as a reduction to the current assets.

As of June 30, 2012, the maturities of receivables are scheduled as follows:

	6/30/2012
Overdue	13,388
2012	5,935
2013	1,092
2014	1,372
2015	1,231
2016	752
2017	560
2018 onwards	**25**
Subtotal	**24,355**
Adjustment to present value	(1,014)
	23,341

8. Allowance for doubtful accounts

Change in provisions	6/30/2012	12/31/2011
Opening balance	12,895	11,633
Provisions recorded in the year	5,995	3,861
Reversal of provisions in the year	(736)	(2,599)
Balance - current	**18,154**	**12,895**
Consumers and concessionaires	4,766	4,163
Credit receivables	13,388	8,732

The allowance for doubtful accounts was made to an amount deemed sufficient to cover any losses incurred on the realization of loans and in accordance with ANEEL instructions, which have been summarized below:

Customers with material debts:

- Individual analysis of the trade accounts receivable by consumption sector, with little prospect of realization.

For the other cases:

- Residential consumers more than 90 days overdue
- Commercial consumers more than 180 days overdue
- Industrial, rural and government consumers, street lighting, public services and others more than 360 days overdue.
- A provision is made for outstanding and overdue receivables more than 90 days overdue.

9. Rate adjustment and review

As consideration for services rendered the concession operator is entitled to charge consumers the rates determined and ratified by the concession authority. The rates are adjusted annually and the concession operator's revenue is divided into two portions: A Portion (consisting of uncontrollable costs) and B Portion (efficient operating costs and capital costs). The annual rate adjustment aims to pass through uncontrollable costs and to monetarily restate controllable costs.

Rate review:

The periodical rate review occurs every 5 years, with the next review scheduled for April 2013.

In this process ANEEL recalculated the rates according to the changes in the structure of the concession operator's costs and sales, in order to foster the efficiency and affordability of the rates. The adjustments and reviews are rate restatement mechanisms, both stipulated in the concession agreement. The concession operator may also request an extraordinary review whenever an event causes a significant economic and financial imbalance in the concession.

Rate adjustments:

On April 17, 2012 Resolution 1,278 ratified the Company's rate review in force since April 22, 2012. The effective rate impact felt by consumers was 4.97%.

10. Extraordinary rate replacement (RTE)

ANEEL issued Normative Resolution 387/2009, establishing a new calculation method for passing through free energy owed to the generators, embracing the entire RTE invoicing period (2002 to 2008).

By using the new method the Company determined new and permanent amounts payable to the generators.

As of June 30, 2012 and December 31, 2011 the balances payable amount to R$ 357, and have been recorded under suppliers payable.

11. Low income and other receivables

	6/30/2012	12/31/2011
Low income	11,980	4,320
Service orders in progress - PEE and R&D	13,660	12,447
Service orders in progress - other	2,545	2,200
Deactivation orders in progress	6,468	(107)
Other	19,210	18,255
	53,863	37,115

Changes in low income follow:

	6/30/2012	12/31/2011
Opening balance	4,320	4,451
Low-income Subsidy	23,234	23,654
Eletrobrás Reimbursement	(15,574)	(23,785)
Balance - closing - current	11,980	4,320

These credits consist of the subsidy for the low-income residential sector with monthly consumption of under 220 KWh, subject to certain requirements being met. This revenue is paid for with funds from the RGR – Global Reversal Reserve and the CDE – Energy Development Account, both administrated by Eletrobrás. The balances not yet reimbursed have been recorded in the balance sheet under “low income and other receivables” in the current assets. Management does not expect to record any losses in the realization of the balance.

12. Recoverable taxes

	6/30/2012	12/31/2011
Value Added Tax on Sales and Services - ICMS	15,595	15,190
Income Tax Withheld at Source - IRRF	940	1,903
Corporate Income Tax - IRPJ	4,114	2,012
Social Contribution on Net Income – CSSL	246	389
PIS and COFINS	22,054	19,008
Other	2,086	1,993
	45,035	40,495
Current	27,927	24,154
Noncurrent	17,108	16,341

13. Related-party transactions

The parent company provides administrative services to the Company on an arm’s length basis and supported by contracts approved by ANEEL. The transactions conducted in the period ended June 30, 2012 and 2011 amount to R$ 6,096 and R$ 5,791 respectively. The balance payable under suppliers payable amounts to R$ 961 (R$ 921 as of December 31, 2011).

	ESA	6/1/2012 to 6/30/2012	6/1/2011 to 6/30/2011
Provision of services	6,096	6,096	5,791

	ESA	4/1/2012 to 6/30/2012	4/1/2011 to 6/30/2011
Provision of services	3,072	**3,072**	**2,945**

The Company is controlled by ENERGISA S/A, (100% of the voting stock), which also holds the share control of Energisa Paraíba - Distribuidora de Energia S/A, Energisa Borborema - Distribuidora de Energia S/A, Energisa Minas Gerais - Distribuidora de Energia S/A, Energisa Nova Friburgo -

Distribuidora de Energia S/A, Energisa Soluções S/A, Energisa Comercializadora Ltda., Energisa Serviços Aéreos S/A, Energisa Planejamento e Corretagem de Seguros Ltda., Energisa Geração Rio Grande S/A, Termosergipe S/A, Pequena Central Hidreletrica Zé Tunim, Energisa Geração Usina Mauricio, the wind energy companies (Renascenças I, II, III and IV, Ventos do São Miguel Energias Renováveis and Parque Eólico Sobradinho), (related parties of the Company).

D&O compensation

As of June 30, 2012 the members of the Board of Directors received compensation of R$ 258 (R$ 248 as of June 30, 2011) and the Executive Board R$ 584 (R$ 660 as of June 30, 2011). In addition to this compensation, the Company provides private pension, health insurance and life insurance benefits to its directors, generating an expense of R$ 144 (R$ 145 as of June 30, 2011). The social charges on the compensation amounted to R$ 215 (R$ 234 as of June 30, 2011).

As of June 30, 2012 the highest and lowest remuneration attributed to directors for the month of June was R$ 40 and R$ 3 (R$ 42 and R$ 3 as of June 30, 2011) respectively. The average compensation as of June 30, 2012 was R$ 12 (R$ 13 as of June 30, 2011).

The AGM held in April 2012 ratified the overall annual compensation limit of the directors and officers for FY 2012 at R$ 4,209.

14. Deferred taxes and current income tax and social contribution expense

Refers to tax credits deriving from tax loss carryforwards, negative social contribution bases and temporary differences recorded in accordance with CPC 32 and presented in accordance with CPC 26.

See below the consolidated estimate for the realization of the deferred taxes. The projected results used in the recoverability study of these assets were approved by the Boards of Directors.

Period	Realizations of Tax credits
2012	1,768
2013	1,817
2014	1,817
2015	1,817
2016	1,817
2017 to 2021	8,491
Total	**17,527**

The income and social contribution amounts which affected the income for the year, in addition to the offsetting of the tax credits recorded, are stated below:

	6/30/2012	6/30/2011
Profit before income and social contribution taxes	49,878	25,816
Combined tax bracket	34%	34%
Income and social contribution taxes expense, calculated at the total tax bracket	(16,959)	(8,777)
Adjustments:		
Exclusions - SUDENE Tax incentive (*)	7,648	5,671
Other additions	601	126
Income tax and social contribution expense	**(8,710)**	**(2,980)**
Effective rate	17.5%	11.5%

(*) The decreases to income tax and surcharges resulting from the SUDENE Incentive of R$ 7,648 as of June 30, 2012 (R$ 5,671 as of June 30, 2011) have been directly recorded in the income statement for the year under "income tax", in accordance with Law 11638/07 and Provisional Law 449/08.

The Company has obtained a reduction to its income tax and surcharges until the 2013 financial year. The aforesaid tax benefit consists of a reduction of up to 75% of the Income Tax calculated on operating profits.

Deferred taxes recognized in the balance sheet:

	6/30/2012	12/31/2011
Assets		
Tax loss carryforward	-	1,179
Negative calculation base of social contributions	-	539
Temporary differences (1)		
Income Tax	12,999	13,360
Social Contributions	4,528	4,658
Total noncurrent	**17,527**	**19,736**

(1) These temporary differences mainly refer to provisions and swap earnings.

15. Accounts receivable from the concession

The Company has a noncurrent balance of R$ 89,060 (R$ 34,021 as of December 31, 2011) consisting of credits receivable from the concession authority for the unconditional right to receive cash at the end of the concession as compensation for investments made and not recovered when providing the concession services. These financial assets are recorded at the historic residual value of the concession assets, which are returned to the concession authority at the end of the concession.

On February 07, 2012 ANEEL issued Normative Resolution 474 which established the new useful economic life for concession assets, converted into annual depreciation rates, retrospectively applicable from January 01, 2012.

Company Management believes that this fact changed the contractual terms of the concession regarding the means of compensating the Company for investments made in concession assets.

Because ICPC 01 (IFRIC 12) does not address the accounting procedure in this situation, Management exercised its judgment by applying an accounting policy that reflects the economic essence of this amendment and adequately represents the financial position, as required by CPC 23 (IAS 8), item 10.

As a result of this analysis, the increase in the balance of compensatable financial assets of R$ 45,041 as of January 01, 2012 was charged to the balance of intangible assets, to reflect the new portion to be directly recovered from the concession authority at the end of the concession. This entry resulted in equivalent reduction to the balance of intangible assets to adjust the portion to be recovered through the provision of concession services (energy sale).

This right is classified as loans and receivables in the noncurrent assets. As of June 30, 2012 this balance stands at:

Change	6/30/2012	12/31/2011
Opening balance	34,021	22,673
Additions	10,002	11,348
Normative Resolution 474	45,041	-
Write-offs	(4)	-
Balance - closing - noncurrent	**89,060**	**34,021**

16. Intangible assets

	6/30/2012	12/31/2011
Concession agreement and studies and projects	256,238	295,984
Concession right	342,042	351,138
Total	**598,280**	**647,122**

a) Concession arrangement

Portion of the assets used in the electricity distribution concession to be recovered through electricity rates during the arrangement term.

Total	206,166	11,309	-	(17,670)	(3,645)	196,160
Total	**295,984**	**33,058**	**-**	**(62,014)**	**(10,790)**	**256,238**

(*) The write-offs from in progress (CHECK) consist of the transfers to accounts receivable from the concession.

The assets used by the Company in its operations are tied to public energy services, and may not be removed, sold, transferred or pledged under mortgage guarantee without the prior, express consent of the Regulatory Authority. ANEEL Resolution 20/99 regulates the disassociation of assets from the Public Electricity Service concessions, granting prior authorization for the disassociation of assets when destined for disposal, also determining the proceeds of the sale be deposited in a specific bank account and reinvested in concession-related assets.

The amortization is being conducted over the arrangement term based on the economic benefits generated annually. The average amortization rate used in (3.70%).

The Company began amortizing the obligations linked to the concession (special obligations) after the second periodical rate review, at the average asset amortization rate.

The balance of intangible assets is reduced by obligations linked to the concession, consisting of:

Obligations linked to the concession:	6/30/2012	12/31/2011
Consumer contributions	81,142	73,311
Government Subsidy – CDE funds	132,617	131,379
State Government Subsidy	43,081	40,918
Reversal reserve	302	302
(-) Accumulated amortization	(28,744)	(25,099)
Total	**228,398**	**220,811**
Allocation:		
Accounts receivable from the concession	32,238	14,645
Infrastructure - Intangible assets in service	116,273	131,872
Infrastructure - Intangible assets in progress	79,887	74,294
Total	**228,398**	**220,811**

- Consumer contributions refer to third-party participation in construction work to supply electricity to areas not embraced by the electricity concessionaires' expansion projects.
- Government subsidies – CDE funds and Government subsidies derive from the Energy Development Account - CDE and are allocated to the Light for All program.
- The reversal reserve, constituted up until December 31, 1971, represents the amount of proceeds

deriving from the reversal fund, which have been invested in the Company's expansion project, charged interest of 5 % per annum paid monthly.

During the period ended June 30, 2012 and 2011 the Company transferred financial charges to the intangible assets in progress, as shown below:

	6/30/2012	6/30/2011
Financial charges recorded in income statement	25,265	23,577
(-) transfer to intangible assets in progress (*)	(2,634)	(1,429)
Net effect on income	**22,630**	**22,148**

(*) Pursuant to CPC 20, the Company used the average weighted rate to appropriate the costs of loans for assets not directly related and the effective rate for the specific assets.

b) Concession right

The goodwill incorporated by the Company is being amortized from April 1998 and will continue to be amortized until the end of the electricity distribution concession in December 2027, based on this Company's projected income. Amortizing the goodwill will generate a tax benefit of 34%. As of June 30, 2012 the amortization of the goodwill and tax benefit was projected as follows:

Amortization period	Balance	Reduction in income and social contribution taxes
2012 and 2013	27,788	9,447
2014 and 2015	38,899	13,226
2016 and 2017	40,920	13,913
2018 and 2019	42,935	14,598
2020 and 2021	44,940	15,280
2022 and 2023	46,924	15,954
2024 onwards	99,636	33,876
Total	**342,042**	**116,294**

The changes are presented below:

	6/30/2012	12/31/2011
Balance - opening	**351,138**	**368,828**
Amortization in the period/year	(9,096)	(17,690)
Closing balance	**342,042**	**351,138**

17. Suppliers payable

(*) To guarantee payment of the short-term portions, the Company maintains interest-earning bank deposits to the amount of R$ 15,168 (R$ 16,269 as of December 31, 2011), recorded under "secured funds" in the current and noncurrent assets.

(1) The NOTES UNITS contract has covenants which in general require the maintenance of certain financial indexes at certain levels. Failure to maintain these indices could result in early maturity of the debts. These requirements were being performed as of June 30, 2012. These contracts are subject to a currency swap and a financial derivative instrument.

Contractual covenants of the loans and financing as of June 30, 2012:

Current	1,720	2,078
Noncurrent	6,448	7,029

22. Provisions for labor, civil and tax risks:

Based on the opinion of its legal advisors, ENERGISA SE Management made a provision for labor, civil and tax contingencies, as shown below:

	Opening balance 12/31/2011	Provisions made	Reversal of provisions	Restatement	Closing balance 6/30/2012
Labor claims	15,021	1,862	(481)	444	16,846
Civil	5,208	111	(1,057)	135	4,397
Total	20,229	1,973	(1,538)	579	21,243
Restricted and escrow deposits (*)	(13,227)	(1,517)	189	(752)	(15,307)

(*) The Company has restricted and escrow deposits in its noncurrent assets of R$ 22,158 (R$ 20,844 as of December 31, 2011). Provisions have not been made for R$ 6,851 (R$ 7,617 as of December 31, 2011) as the chances of success are rated as possible or probable.

Probable losses

Labor claims

Based on the opinion of independent legal advisers, when applicable, the Company's legal advisers analyzed the labor claims in progress and accordingly made a provision of a further R$ 1,862 (R$ 3,565 as of December 31, 2011), and reversed a provision of R$ 481 (R$ 5,582 as of December 31, 2011).

Most of these lawsuits involve claims for overtime, salary parity, FGTS (Government Severance Indemnity Fund for Employees) and contractual/legal fees.

Civil

The civil proceedings are mainly disputing indemnification for moral and material damages and consumer complaints involving energy debits.

As of June 30, 2012 additional provisions were made of R$ 111 (R$ 2,066 as of December 31, 2011) and provisions reversed of R$ 1,057 (R$ 2,119 as of December 31, 2011).

Possible Losses

The Company is party to labor, civil and tax claims in progress amounting to R$ 59,025 (R$ 96,323 as of December 31, 2011), where the chance of success has been estimated as possible, meaning no provision was required.

See below the comments of our legal advisers regarding cases rated as a possible risk:

Labor claims

Labor claims amounting to R$ 8,267 (R$ 8,358 as of December 31, 2011) seeking contractual/legal fees due to joint liability with outsourced companies, in addition to trade union fees.

Civil

These proceedings amounting to R$ 22,368 (R$ 18,119 as of December 31, 2011) are claiming indemnification for punitive/material damages and entail customer complaints about energy bills.

Tax

Proceedings claiming tax and contribution differences – IRPJ/CSLL/PIS/COFINS/INSS amounting to R$ 28,390 (R$ 69,846 as of December 31, 2011).

23. Shareholders’ equity

23.1 Capital

The subscribed and paid-in share capital is comprised of 122,147 common shares and 73,373 preferred shares. The preferred shares hold no voting rights but have priority in the reimbursement of capital in the event of Company liquidation and distribution of mandatory, non-cumulative dividends at 10% per annum over the company capital attributed to this kind of share.

The Extraordinary General Meeting held April 25, 2012 approved the capital increase of R$ 10,131, without the issuance of new shares, by capitalizing the balance of the tax incentive reserve - income tax reduction accumulated until December 31, 2011. The share capital accordingly fell to R$ 329,371 (R$ 319,239 as of December 31, 2011).

Irrespective of amendments to the bylaws, the Company may increase its share capital through subscription to the limit of 450,000 shares, consisting of 150,000 common shares and up to 300,000 preferred shares, where the Board of Directors shall resolve the means, subscription terms and payment terms of the shares and the features of the shares to be issued and the issue price.

As authorized by its Board of Directors, the Company has bought back 11 common shares of its issuance to be held in the Treasury, which have been recorded under "treasury stock" in the shareholders' equity at the amount of R$ 18. As it is a wholly owned subsidiary, the Company's shares have no market value.

23.2 Dividends

The corporate bylaws determine the payment of a mandatory dividend of 25% of the net income for the year, adjusted as stipulated by article 202 of Law 6404, dated 12/15/1976.

Because these dividends exceeded the minimum mandatory amount approved after the end of the financial year, on December 31, 2011 they were recorded in a specific item of dividends payable in shareholders' equity, in due accordance with CPC-08. On February 14, 2012 the Board of Directors resolved to pay out additional dividends of R$ 15,769 (R$ 80.65 per share) on June 30, 2012.

24. Operating revenue

25. Insurance coverage

The Company has the policy of taking out insurance coverage for the assets subject to risk at amounts considered sufficient to cover any incidents, considering the nature of its activity. The Company's insurance contracts are made in accordance with the risk management and insurance fundamentals generally employed by electricity distribution companies. Given their nature, the risk assumptions adopted do not comprise the scope of an interim financial information review, and were not therefore reviewed by our independent auditors.

The civil liability and named risk policies are taken out in conjunction with the other Energisa Group companies and the maximum indemnification amounts are stated in the insurance coverage.

The main items covered are:

Lines	Maturity Date	Insurance Coverage	Annual Premium 6/30/2012 and 12/31/2011
Nominated Risks	10/23/2012	26,100	152
General Civil Liability	10/23/2012	33,953	166
Automobiles – Third-party material and personal damages.	10/23/2012	up to R$ 200 / vehicle	85
Collective life insurance – Personal Death and Accidents	12/31/2012	46,939	192
			595

Nominated Risks

The insurance policy specified the substations, buildings and equipment and the respective insured values and the indemnification limits. It has basic coverage including fire, lightning strike and explosions of any nature, electrical damages, hurricanes, aircraft crash, collision by air or ground vehicle, commotion, portable equipment, flooding/water damage, minor engineering work, extraordinary expenses, inclusion / exclusion of assets and sites, mistakes and omissions.

Civil Liability

The GERIP insurance policy covers moral hazard, material and personal damages to third parties resulting from the Company's operations.

Vehicles

The Company has insurance coverage for RCF/V – Optional/Vehicle Civil Liability, guaranteeing coverage of personal and/or material damages incurred by third parties involved in accidents.

Collective Life Insurance and Personal Accidents

Guarantees insurance coverage for its employees in the event of death by any cause, full or partial permanent disability due to accidents and permanent and/or total disability due to illness.

26. Financial instruments and risk management

The book and fair values of financial instrument assets and liabilities have been compared below:

	6/30/2012		12/31/2011	
ASSETS	**Book**	**Fair value**	**Book**	**Fair value**
Cash and cash equivalents	62,878	62,878	78,427	78,427
Money market and secured funds	33,982	33,982	33,296	33,296
Consumers and concessionaires	117,359	117,359	115,659	115,659
Credit receivables and other	9,953	9,953	12,424	12,424
Accounts receivable from the concession	89,060	89,060	34,021	34,021
LIABILITIES				
Suppliers payable	(51,854)	(51,854)	(49,430)	(49,430)
Loans, financing, debt charges and debentures	(514,573)	(539,372)	(506,322)	(537,897)

In compliance with CVM Instruction 475/2008 and Resolution 604/2009, the description of the book balances and the fair values of the financial instruments included in the balance sheet at June 30, 2012 and December 31, 2011 are shown below:

Nonderivatives - classification and measurement

Loans and receivables:

Includes trade accounts receivable, consumers and concession operators, outstanding receivables, other receivables and accounts receivable of the concession. They are initially measured at amortized cost using the effective interest rate, and their balances are approximated to fair value.
Money market and secured funds:
The balances of short-term investments in Bank Deposit Certificates and investment funds are valued at fair value through profit and loss, market valuations and/or effective interest rates.

Financial liabilities measured at amortized cost:

Suppliers payable - stated at the known amounts or estimated, plus, when applicable, the corresponding charges and/or monetary and exchange variations incurred up to the balance sheet date, where the book value approximates fair value.

Loans and financing, debt charges and debentures

These financial instruments are classified as financial liabilities at amortized cost. The book values of the local-currency loans and financing obtained from Centrais Elétricas Brasileiras S.A. – Eletrobrás, BNB and BNDES, are compatible with the fair value of the transactions, as similar transactions are not available on the financial market, with comparable maturities and interest rates. In the case of the BONDs, Credit receivables investment funds and the 1st and 2nd debentures issuance, the book value differs from the fair value as there is a market on which the securities can be traded.

Derivatives

Note that the estimated fair values of the financial assets and liabilities were determined through information available in the market and appropriate valuation methodologies. However, considerable judgment was required in the interpretation of the market data to estimate the most adequate fair value. Consequently, the estimates used and presented below do not necessarily indicate the values that could be realized in the current exchange market.

The Company has the policy of managing market risks, thereby avoiding assuming material positions exposed to fair value fluctuations. They therefore only seek to use instruments which provide greater risk control. The derivative contracts involve swap operations and options with interest and exchange rates for hedge transactions against adverse exchange variance in their US dollar denominated debt.

The hedge transactions against adverse exchange variance require constant monitoring in order to preserve the efficiency of their structures. The transactions in force are subject to restructuring at any time and can be reversed or subject to additional transactions in order to reduce potential material losses.

- **Limitations**

The amounts were estimated at the reporting date based on information available in the market and appropriate appraisal techniques. However, considerable judgment was required in the interpretation of the market data to estimate the most adequate fair value. Consequently, the estimates used and presented below do not necessarily indicate the values that could be realized in the current exchange market.

- **Financial risk management**

The Board of Directors is generally responsible for establishing and supervising the risk management model of the Company. It has therefore implemented operating limits with pre-established amounts and indicators in the "Financial Risk Management policy" (available on the Company's site) and in the internal regulations of the Executive Board of the Company. The Executive Board issues a monthly report on budgetary performance and risk factors involving the Company.

The Company's risk management policy was established to detect, analyze and monitor risks encountered, in order to establish limits and check compliance with them. Risk management policies and systems are reviewed regularly in order to evaluate changes in market conditions and the Company's activities.

The "Financial Market Risk Management Policy" was introduced on May 11, 2009 and was revised for the first time on April 27, 2010 and again on February 24, 2011; this policy can be viewed on the Company's website.

The Company has been using the services of a specialized, independent company in cash and debt risk management, which means that the main macroeconomic indicators and their impact on results are monitored on a daily basis, in particular derivative transactions. This allows contracting and repositioning strategies to be devised, pursuing low risk and higher financial income.

a) Liquidity risk

By way of the projected cash flow, Management schedules its obligations to generate financial liabilities to the flow of receipts or sources of financing in order to ensure the greatest possible liquidity so as to honor its obligations, thereby avoiding default which hinders the operational progress of the Company.

The financial liabilities, including estimated interest payments, are as follows. Significant changes in the analyzed cash flows are not expected.

	Up to 6 months	6 to 12 months	1 to 3 years	3 to 5 years	Over 5 years	Total
Suppliers payable	49,961	-	-	-	1,893	51,854
Loans, financing, debt charges and debentures	46,831	32,806	394,354	68,893	94,263	637,147

b) Credit risk

Management believes the risks posed by its interest-earning bank deposits are minimal, as there is no concentration and transactions are conducted with banks of renowned solidity and risk is assessed in accordance with the "Financial Risk Management policy". The policy also gives priority to allocating the funds to short-term investments, with daily liquidity, whenever possible. It is also overseen by the Audit Committee of the Board of Directors, created in the first quarter of 2010.

The Company's credit risk is posed by accounts receivable, which however is mitigated by sales to a broad consumer base and legal prerogatives which allow the provision of services to defaulting clients to be suspended. Part of the receivables referring to sales, energy acquisition and system service charges, incurred at CCEE, are also subject to change depending on the outcome of legal proceedings in progress, filed by a number of companies in the sector. These proceedings have resulted from the interpretation of market rules in force between June 2001 and February 2002, during which the Emergency Electricity Rationing Program was in force.

Exposure to credit risks

The book value of the financial assets denotes the maximum credit exposure. The maximum exposure to the credit risk at the interim reporting date was:

	6/30/2012	12/31/2011
Cash and cash equivalents	62,878	78,427
Money market and secured funds	33,982	33,296
Consumers and concessionaires	117,359	115,659
Credit receivables and other	9,953	12,424
Accounts receivable from the concession	89,060	34,021

Further information about these credits can be seen in notes 5, 6, 7 and 15.

c) Interest and exchange rate risk

Part of the local-currency loans and financing presented in note 18 consist of financing from several national development agencies (Eletrobrás, Banco do Nordeste and BNDES) and other institutions in the capital market.

The market rate (or opportunity cost of capital) is defined by these Agents, taking into account the underlying interest rate, the risk premium compatible with the financed companies, their guarantees and the sector they are engaged in. In the event it is not possible to acquire other alternatives or different market hypotheses and/or methods for their estimates, in view of the subsidiaries' business and sector specifics, these are measured by the amortized cost method at the contractual rates.

The Company's income is susceptible to variations due to the volatility of the currency coupon and exchange rate on liabilities denominated in foreign currencies, mainly the US dollar, which lost 7.27% in the period ended June 30, 2012 as compared to December 31, 2011, quoted at R$ 2.0213 / USD.

R$ 314,032 (R$ 291,458 as of December 31, 2011) of Energisa SE's bank issuance debt as of June 30, 2012 amounting to R$ 522,399 (R$ 514,178 as of December 31, 2011) is denominated in US dollars deriving from the international Notes Units issuance, with an outstanding balance, including interest, at the end of the year of USD 112.7 million (principal of USD 107.1 million), in addition to USD 42.6 million (principal of USD 42 million) in debentures issued by Energisa SE. The notes mature on July 19, 2013 and pay interest of USD + 10.5% per annum. The debentures yield interest of USD + 8.85% per annum and also have a long-term maturity over three annual installments, the last of which matures on November 08, 2015.

The balance sheet as of June 30, 2012 presents R$ 13,964 in the noncurrent assets (R$ 6,359 as of December 31, 2011) and R$ 16,089 as of December 31, 2011 referring to the mark-to-market of the financial derivatives related to the foreign exchange rate and interest, resulting from a combination of factors usually adopted for the mark-to-market of these instruments, such as volatility, currency coupon, interest rates and the US dollar exchange rate. This is not a material liability, because the reversal value of derivatives at the calculation date is estimated, which does not correspond to the hedge objective expected by management. The mark-to-market entries made in the financial statements are reversed when the caps established for the existing operations are not exceeded, as shown below. Furthermore, further deterioration of the volatility, the currency coupon and the f/x rate could result in the entry increasing.

Energisa SE has hedged the aforementioned positions against adverse exchange variance, as mentioned earlier. These hedges are split into the following instruments:

1. Hedge for the amount of USD 42 million and USD 7.5 million of interest through a series of currency swaps with exchange-rate cap of between R$/USD 2.691 (Nov-12) and R$/USD 2.8841 (Nov-13) until 11/08/2013, in order to hedge the debenture issuance against adverse exchange variance, thereby conducting a swap of the cost of USD + 8.85% p.a. for 120.6% of the CDI

variance, hedging interest payments scheduled for 11/8/2012 to 11/08/2013 and the value of the principal at the latter date.

2. Hedge for the principal of USD 107.1 million and interest of USD 22.8 million through a series of currency swaps with exchange-rate cap of between R$/USD 2.7150 (Jul-12) and R$/USD 2.9170 (Jul-2013) until 7/19/2013. The operation involves a swap of the cost of USD + 10.5% p.a. for 131.5% of the CDI variance, hedging semi-annual interest payments scheduled for 7/19/2012 to 07/19/2013 and the value of the principal at the latter date.

In the period the foreign exchange hedges yielded a gain of R$ 17,243 (loss of R$ 25,505 as of June 30, 2011), due to the appreciation of the US dollar.

Company Management monitors changes in the market, so that these hedge transactions may be restructured and their terms even extended depending on the performance of the exchange rate (R$/USD), in terms of volatility and stabilization level. Company management sought to replace complex derivatives with simpler structures and greater liquidity, with a view to lower risk exposure.

In accordance with CVM Resolution 550/08, revoked by CVM Resolution 603/09, the summary values of the Company's financial derivatives as of June 30, 2012 and December 31, 2011 are as follows:

Derivative Financial Instruments							
	Reference Value			**Fair Value**		**Accumulated effect**	
	6/30/2012	**12/31/2011**	**Description**	**6/30/2012**	**12/31/2011**	**Receivable / (Received)**	**Payable / (paid)**
	Notional (BRL)		Receivable Position				
			Foreign currency - USD	338,727	321,774	-	(3,676)
Swap with options – Itaú BBA and Santander	239,090	251,010	Liability Position				
			CDI Interest Rate	(323,963)	(327,262)	-	-
			Foreign Currency Options (USD)	(800)	(4,242)	-	-
			Total Swap Position with Options	13,964	(9,730)	-	(3,676)

The Fair Value of the derivatives as of June 30, 2012 as of December 31, 2011 was calculated based on the market price quotes for similar contracts. Their variance is directly associated with the variance of the debt balances listed in the note 18 and the positive performance of the hedge mechanisms used, as described above. These contracts do not stipulate interim payments before their maturity date. The Company does not intend to settle these contracts before maturity. It also has different expectations for the results presented as Fair Value – as shown below. To ensure perfect management, daily monitoring is conducted in order to keep risk to a minimum and obtain better financial results.

The mark-to-market (MtM) of Energisa SE's operations was calculated by an accepted method generally used by the market. The method basically consists of calculating the future value of the operations agreed in each contract, discounting the present value at market rates. A variant of the Black & Scholes formula is used to calculate the MtM of options. This formula is normally used to calculate the premium on currency options. The data used in these calculations was obtained from reliable sources. The market rates, such as the fixed rate and dollar coupon, were obtained directly from the BM&F site (Market Rates for Swaps). The Ptax exchange rate was obtained from the Central Bank's site. The implicit dollar volatility for options was obtained from other market sources.

Sensitivity Analysis

Pursuant to CVM Instruction 475/08 and Resolution 604/2009, which displaced Resolution 566/2008, the Company conducted sensitivity analyses on the main risks to which the financial instruments and derivatives are exposed, as shown:

a) Exchange variance

If the exchange exposure as of June 30, 2012 and December 31, 2011 were maintained, and the effects on the future interim financial statements simulated by type of financial instrument and for three different scenarios, the following results would be obtained (restated as for the interim reporting date):

Operation	Exposure	Risk	Scenario I (Probable)(*)	Scenario II (Deterioration of 25%)	Scenario III (Deterioration of 50%)
Financial instruments - Debentures		US$	14,096	(6,821)	(27,739)
Swap with Options:					
Receivable position - Foreign Currency - USD	93,260	Higher f/x rate	83,516	104,395	125,274
Payable Position - CDI Interest Rate	(88,778)		(88,778)	(88,778)	(88,778))
Foreign Currency Options - USD	(461)		-	-	(1,131)
Subtotal	4,021		(5,262)	15,617	35,365
Net	4,021		8,834	8,796	7,626
Financial instruments - Bond					
Swap with Options:			21,861	(34,041)	(89,943)
Receivable position - Foreign Currency - USD	245,467	Higher f/x rate	223,603	279,503	335,404
Payable Position - CDI Interest Rate	(235,185)		(235,185)	(235,185)	(235,185)
Foreign Currency Options - USD	(339)		-	-	(2,177)
Subtotal	9,943		(11,582)	44,318	98,042
Net	9,943		10,279	10,277	8,099
Total	13,964		19,113	19,073	15,725

(*) Considers the macroeconomic scenario presented by the Focus Survey as of June 30, 2012 for the future dates until the final settlement of the operations.

In the "Probable Scenario", calculated based on the net analysis of the above operations until the maturity thereof, adjusted to present value by the fixed rate in Brazilian reais as of June 30, 2012, the derivatives are effective, which is reflected in the positive present value of R$ 19,113, that shows how the adverse exchange variance in existing debts was mitigated. The higher the exchange devaluation (risk variable considered), the higher the gain of the swaps will be, providing the derivative caps are not exceeded. However, there would be positive present values of R$ 19,073 and R$ 15,725 in the scenarios where the Brazilian currency lost 25% and 50% against the US dollar, a scenario in which the current caps would be exceeded.

b) Interest rate variance

Considering the exposure of financial instruments indexed to interest rates as of June 30, 2012 is maintained and the respective accumulated annual indexes are (CDI 8.02% p.a., LTIR 6% p.a. and FNE 8% p.a.) and if the indexes vary in accordance with the three scenarios defined, the net financial result would be affected by:

Instruments	Exposure (R$ thousands)	Risk	Scenario I (Probable)(*)	Scenario II (Deterioration of 25%)	Scenario III (Deterioration of 50%)
Receivable financial instruments:					
Money Market	85,645	Increase in CDI	1,707	2,119	2,525
Payable financial instruments:					
Loans and financing	(91,362)	Increase in CDI	(2,108)	(2,835)	(3,314)
	(10,485)	Increase in LTIR	(310)	(348)	(386)
	(14,588)	Increase in FNE	(223)	(279)	(335)
Subtotal (**)	(116,435)		(2,641)	(3,462)	(4,035)
Total	(30,790)		(934)	(1,343)	(1,510)

(*) Considers the CDI at September 30, 2012 (8.02% p.a.), quote of the estimates presented by the recent BACEN survey, dated June 30, 2012, TJLP of 6% p.a. and FNE funds of 8% p.a. (loans contracted from Banco do Nordeste already reflecting the performance bonus).
(**) Does not include dollar transactions worth R$ 314,032.

Fair value hierarchy

The table below presents financial instruments recorded at fair value using a valuation method.

The different levels were defined as follows:

- Level 1 - Prices quoted (in adjusted) in active markets for identical assets and liabilities
- Level 2 - Inputs, except for quoted prices, included in Level 1 that are observable for the assets and liabilities, directly (prices) or indirectly (derived from prices)
- Level 3 - Premises, for the asset or liability, that are not based on observable market data (unobservable inputs).

Financial instruments	Level	6/30/2012	12/31/2011
Assets			
Money market and secured funds	2	33,982	33,296
Derivative financial instruments	2	13,964	6,359
Liabilities			
Derivative financial instruments	2	-	(16,089)

We emphasize that we did not observe any Level 1 and 3 financial instruments during the period under analysis and no level transfers took place in this period.

27. Employee benefits

a) Retirement and pension supplementation plan

The Company sponsors fixed-benefit pension plans for its employees. The defined-benefit plan undergoes an actuarial assessment at the end of each financial year, in order to ascertain whether the contribution rates are sufficient to establish the reserves required to meet the current and future payment commitments. The figures of the latest assessment can be seen in note 33 to the quarterly information for the year ended December 31, 2011.

In the period ended June 30, 2012 the expense incurred on sponsoring these plans stood at R$ 790 (R$ 721 as of June 30, 2011).

b) Healthcare plan

The Company sponsors its employees' health insurance plans, which are managed by an operator regulated by the National Health Agency (ANS). Upon termination of employment or retirement, employees may retain their health insurance plans provided they assume all the costs; the Company has no post-employment ties with or obligations to employees. In the period ended June 30, 2012 the expense incurred on this benefit stood at R$ 2,899 (R$ 973 as of June 30, 2011).

28. Commitments

The Company has the following commitments under long-term energy acquisition contracts:

Energy purchase contracts:

Term	2012	2013	2014	2015	2016	2016 onwards
2012 to 2045	324,402	266,695	230,648	235,900	232,751	3,491,432

The amounts referring to energy acquisition contracts lasting between 8 and 30 years represent the volume contracted at the current price at the end of June 2012, which have been ratified by ANEEL.

29. Distribution concession contract

On December 23, 1997 Energisa SE and the National Electric Energy Agency – ANEEL signed the electricity distribution concession contract through to December 23, 2027.

30. Subsequent event

On August 09, 2012 the Company's Board of Directors approved the payment of interim dividends from the net income for the first half of this year, amounting to R$ 28,980 (R$ 148.23 per common and preferred share). These dividends will be paid on August 17, 2012.
