**PRESS RELEASE**  
**Aneel ratifies EMG rate adjustment**

Pursuant to CVM Directive 358 issued January 3, 2002, ENERGISA S.A. and its aforesaid subsidiary hereby announce that at an ordinary public meeting of the board held today, the National Electricity Regulatory Agency (“Aneel”) approved the annual rate adjustment of Energisa Minas Gerais (“EMG”), applicable from June 22, 2018, as shown below:

Voltage level	Average effect for Consumer
Low voltage	+ 11.21%
High and medium voltage	+ 15.44%
<b>Total</b>	<b>+ 12.05%</b>

The annual rate adjustment process consists of passing through to consumers the uncontrollable concession costs (A Portion - energy purchases, sector charges, unrecoverable revenue and transmission charges) and the restatement of controllable costs (B Portion) by the variance of the IPCA price index less the X Factor, which passes through to consumers the annual productivity gains made by the concession operator, other revenue, excess demand and excess reactive power.

The change in A portion costs was 10.5%, primarily impacted by energy transportation which rose by 26.7% due to the distribution system usage contracts with other distribution companies. The average pass-through price of energy purchase contracts (“PMix”) was set at R\$ 198.90 / MWh.

The change in the B Portion was 1.6%, amounting to R\$ 223.1 million, reflecting the inflation accumulated since the last adjustment of 2.93%, less the X Factor, of 0.08%.

The table below details each component of EMG’s rate adjustment:

Average effect to be felt: + 12.05%	Pass-through of variance of A and B Portions: + 7.45 %	B Portion	+ 0.53%
		Electricity purchases	+ 2.95%
		Sector charges	+ 1.62%
		Transmission costs	+ 2.27%
		Unrecoverable revenue	+ 0.08%
	Changes in financial accounts: + 4.60 %	Removal of financial items from the previous process	- 0.55%
		Additional financial items RTP 2018	+ 5.15%
