PRESS RELEASE

Aneel approves annual rate adjustment of Energisa Sul-Sudeste

Pursuant to CVM Directive 358 issued January 3, 2002, Energisa S.A. and its aforesaid subsidiary hereby announce that at an ordinary public meeting of the board held today, the National Electricity Regulatory Agency (“Aneel”) approved the rate adjustment of Energisa Sul-Sudeste Distribuidora de Energia S.A. (“ESS”), applicable from July 12, 2018, as shown below:

Voltage level	Average effect for Consumer
High voltage	16.74%
Low voltage	15.06%
Average effect total	15.55%

The annual rate adjustment process consists of passing through to consumers the uncontrollable concession costs (A Portion - energy purchases, sector charges, unrecoverable revenue and transmission charges) and the restatement of controllable costs (B Portion) by the variance of the IPCA price index less the X Factor, which passes through to consumers the annual productivity gains made by the concession operator, other revenue, excess demand and excess reactive power.

The change in A Portion costs was 8.19%, driven by energy purchases. The average pass-through price of energy purchase contracts (“PMix”) was set at R\$ 183.73 / MWh.

The change in the B Portion was 0.96%, amounting to R\$ 383.5 million, reflecting the inflation accumulated since the last adjustment of 4.14%, less the X Factor, of 1.13%, and the deduction of other revenue, excess demand and excess reactive power.

The table below details each component of ESS’s rate adjustment:

Average effect to be felt: +15.55%	Pass-through of variance of A and B Portions: +6.41%	B Portion	+ 0.24%
		Electricity purchases	+ 4.16%
		Sector charges	+ 2.16%
		Transmission costs	- 0.16%
		Unrecoverable revenue	+ 0.01%
	Changes in financial accounts: +9.15%	Removal of financial items from the previous process	+ 3.26%
		Additional financial items RTP 2018	+ 5.89%
