**PRESS RELEASE**  
**Aneel ratifies Rate Adjustment of Energisa Tocantins**

Pursuant to CVM Directive 358 issued January 3, 2002, Energisa S.A. and its aforesaid subsidiary hereby announce that at an ordinary public meeting held today, the National Electricity Regulatory Agency (“Aneel”) approved the rate adjustment of Energisa Tocantins - Distribuidora de Energia S.A. (“Energisa Tocantins” or “ETO”), applicable from July 4, 2018, as shown below:

Voltage level	Average effect for Consumer
Low voltage	+ 10.15%
High and medium voltage	+ 10.04%
<b>Total</b>	<b>+ 10.13%</b>

The annual rate adjustment process consists of passing through to consumers the uncontrollable concession costs (A Portion - energy purchases, sector charges and transmission charges) and the restatement of controllable costs (B Portion) by the variance of the IGP-M price index less the X Factor, which passes through to consumers the annual productivity gains made by the concession operator.

The change in A Portion costs was 8.31%, driven by energy purchases. The average pass-through price of energy purchase contracts (“PMix”) was set at R\$ 201.16 / MWh.

The change in the B Portion was 5.76%, amounting to R\$ 497.3 million, reflecting the inflation accumulated since the last adjustment of 6.92%, less the X Factor, of 1.16%.

The table below details each component of ETO’s rate adjustment:

Average effect to be felt: + 10.13%	Pass-through of variance of A and B Portions: + 7.23%	B Portion	+ 2.44%
		Sector charges	+ 4.51%
		Sector charges	+ 0.72%
		Transmission costs	- 0.44%
	Changes in financial accounts: + 2.90%	Removal of financial items from the previous process	- 1.80%
		Additional financial items RTP 2018	+ 4.70%
